Fabric

Select when you want a unified end-to-end intelligent data platform that includes cloud services and tools for every data lifecycle stage—ingestion, preparation, storage, analysis, and visualization; and you need Azure specific capabilities like ARM APIs, Terraform support, or managed private endpoints. [Learn more](#)

Fabric Trial

Select when you want to assess the capabilities offered in Fabric for free for 60 days before deciding to purchase. Almost all capabilities are available except a few like Copilot, trusted workspace access, auto scale, and private links. [Learn more](#)

Power BI Premium

Select when you want a unified end-to-end intelligent data platform that includes cloud services and tools for every data lifecycle stage—ingestion, preparation, storage, analysis, and visualization; and you do not need Azure specific capabilities like ARM APIs, Terraform support, or managed private endpoints. This workspace type has been retired. [Learn more](#)
